CDX DA FONZE SUNGLASSES

Tournament 37kg

H.C.B = High Compression Bonding
E.E.G = Entwined External Graphite

The CD Tournament series is at the very top of the list for heavy tackle big game fisherman in NZ and around the world. The new CD tournament rods are constructed with a refined technology called H.C.B - *High Compression Bonding* of uni-directional 100% carbon fibre materials unlike we have ever used before. This technology along with the very best Alps components available today make for a perfectly balanced, strong and an ideal power to weight ratio rod that will deliver the fish of a life time with ease.

Titan & Titan Deep Drop

The latest generation of Titan rods have been re-designed totally after consultation with some of NZ's leading Game Fisherman. The blanks are designed with a Californian action in mind to offer the most comfortable action for the angler whilst putting more hurt on the fish. The blank incorporates the all new H.C.B. technology, graphite/unidirectional composites and includes the highest quality components from Alps and are finished to our normal C.D. rigorous standards. New to the Titan range is the deep drop series, designed specifically for targeting Swords and Big tuna on 37kg and big Bass and Hapuka on the 24kg model. These rods come standard with Alps Bent Butt and are designed for deep dropping.

Albagraph Series

Now into our 6th generation and these rods just keep improving as technology advances and the demands of the angler escalate. These new rods were designed utilizing the infamous Albagraph series action but incorporate some major improvements in both materials and Alps components. Technology incorporates both the H.C.B and E.E.G method of manufacture, this now also includes the way guides are bound. These blanks are also modeled off the famous East European (Russia/Serbia etc) spinning rods which are light powerful, significantly stronger than ever before and extremely sensitive. As with previous generations these famous rods can be used for almost any occasion: from small baitfish, snapper, kings, jigging, off the wharf, rocks etc. Nothing is too much for this most famous of rod series that has come from our stable.

Graph-Pitch

H.C.B. technology and E.E.G. along with the graphite bound guides make this a very exciting series. Extremely powerful yet so amazingly light makes these little beauties ideal for slow jigging, stray-lining and even light speed jigging. New light weight handle, latest ALPS guides and graphite reel seat makes this series an absolute delight to get out there and fish all day with.

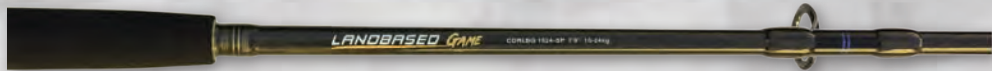

Fast Jig

H.C.B. technology along with the graphite bound guides make this a very exciting series. Extremely powerful yet so amazingly light makes these rods ideal for slow jigging, stray-lining and even light speed jigging. New light weight handle, latest ALPS guides and graphite reel seat makes the CD Fast-Jig series an absolute delight to get out there and fish all day with.

Land Based Game-LBG

C.D. has been a world leading manufacturer of the L.B.G. series in the years gone by, last time made was in the year 2000. This new C.D. series has been designed utilizing both the H.C.B. and E.E.G. technology along with the graphite bound ALPS guides, strong robust reel seat, Hypalon protected rear grip makes up what we believe is the strongest L.B.G. rod in the market today. As we all know you cannot have failure in a rod like this when fishing for the big one in precarious positions around our coastlines hence the reason we have gone above and beyond with this rod design...you will absolutely love this series.

Orka

Blanks manufactured in the traditional C.D. quality manor, helical wraps and 100% uni-directional graphite utilizing 24 and 33 ton modulus materials. Blanks are designed off the top selling Russian spin blanks but slightly heavier due to the materials used, however this also makes for a very strong and resilient rod for New Zealand conditions. Utilizes the very best componentry from Sea-guide making this a top end affordable rod for the person whom wants to get out there and do it properly without breaking the bank.

Blue Rapid

Blanks manufactured in the traditional C.D. quality manor, helical wraps and 100% uni-directional graphite utilizing 33-44 and 53 million ton modulus materials. These blanks are light but extremely powerful, designed initially for the Russian pro casting team whom still today win their respective tournaments with these powerful and strong weapons. The rods all come with top end Fuji-guides and components, the best Portuguese cork and a high quality cloth bag to protect this awesome machine.

Extra Sense Nano

Blanks manufactured in the traditional C.D. quality manor, helical wraps and 100% uni-directional graphite utilizing 33 and 44 million ton modulus materials and Nano -resins to give that unique light feel and extra bonding strength. These actions and blanks are designed for the perfectionist in casting and presentation, the ultimate spinning rod for those that are out there doing it all the time. Components all top end Fuji SIC guides, reel seats etc to behove this ultimate machine and make casting a pleasure 24/7.

Fishing Rods | Fishing Reels | Fly Reels | Accessories

MAKAIRA

Makaira rods Roller tip & Fully rolled - Makaira rods feature an ultra-durable and strong Carbon composite blank technology to deliver ultimate lifting power, incorporating the highest quality alp componentry available with a straight or bent butt and either roller tip or fully rolled verisons and finished with a custom leather wrap foregrip.

METALOID

These New Zealand (C.D. Team) designed high modulus compressed tri-axial carbon rods are another step up for strength and durability. Finished with stunning Metaloid colours and utilizing Alps and Fuji hardware make these one of the finest series coming from the Okuma stable this year, perfect for both the spinning and overhead reels.

NANOMATRIX

Introduced in 2015 this series of Nano-Matrix rods has become an icon here in New Zealand for those anglers wanting the very best out there. Utilizing Nano materials (resins) these finally crafted rods are an absolute delight to feel every little thing that touches your baits under the water. Several new models and updates for this season and still dressed with the finest Alps and Fuji hardware.

CORTEZ

The Cortez series have been designed for Snapper strayling (straylining) and we have used a composite mix of 26T & glass blank for an ultra strong blank that will withstand serious punishment. We specifically created a Med Fast action to give the best hook set on fish and lifting power for deeper water. Super strong with new cosmetics to match the new cortez (Cortez) reel.

TOURNAMENT CONCEPT

New for this 2017/18 season, the Tournament Concept series of rods are built using Okuma's patented Unidirectional Fibre Reinforcement technology. These rods, designed for Kiwi anglers by the team at Composite Developments, are manufactured using a patented process with an outer layer of longitudinal fibres around the rod blank to significantly increase strength and power in the tip section. This offers lifting power and strength up to four times conventional graphite rods. There is a rod in the range for almost every method and style of fishing, they are durable, powerful and can be fished by all anglers with confidence.

AZORES

Utilising a new Okuma process (including the carbon twill reinforced butt) and high performance carbons from Japan and Korea these Azores rods will totally blow you away with their strength, casting ability and their over-all sensitivity to feel everything. Finished to the highest specs and utilizing the very best of hardware such as the Alps guides, Okuma customized reel seat and rubberized gimbal butt makes these rods an absolute delight to use in the field.

X-FACTOR

GRAPHITE TWILL-GLASS COMPOSITE

This series was designed to meet the expectations and demands of the Kiwi angler: tough, durable with crisp actions and delivered at an affordable price that the everyday man can afford. All of this has been incorporated into our most successful and longest standing rod series to date. New cosmetics and new models are always being added to keep this series at the fore front of leading design.

Ceymar

Ceymar range has been designed for the entry to mid-level price points creating an ultra-strong & durable blank using 26T blank construction and finished with eye catching cosmetics. Incorporating a Med Fast Action to deliver excellent casting & sensitivity in a more palatable price range.

RTX

The RTX rod range is made to be the perfect match with the RTX reels. Putting lightweight components together with a slim and strong blank construction, utilising a combination of 30 & 36T carbon and the latest C40X carbon material in the reel seat and handle inserts. We've created the ultimate in Med fast actions designed specifically for the NZ salmon fishery.

TECHNOLOGY FOR THE FUTURE

DUAL FORCE DRAG

Maximize high-end drag pressure, efficiency and overall smoothness by keeping all mechanical workings in precise alignment.

C-40X

Okuma's C-40X carbon technology means a 25% lighter, 1.5 times stronger and 100% anti-corrosive construction, which translates into reels that are extremely lightweight and durable.

T BAR

The patented design of the T-Bar handle offers a true ergonomically correct angle to ensure an angler gets maximum power with minimum fatigue.

PRECISION ELLIPTICAL GEARING SYSTEM

By regulating the speed of the spindle stroke, reels equipped with this system wind line more consistently and uniformly on the spool, resulting in level line lay. This creates less friction during casting for increased distance, greater accuracy, and longer line life, as well as smoother, more uniform drag pressures.

MCS

Magnetic Control System is a fully-sealed, 100% waterproof cast control system that reduces backlash and improves casting distance by utilizing the magnetic field generated by the high RPM spinning of the spool during casting.

WIDE MOUTH LEVELWIND

This heavy-duty, stainless steel levelwind is Titanium coated and built to withstand the punishment of braided and wire lines & has been designed with an increased opening to insure proper knot clearance.

XL GEARING

The XL gearing design found on both lever drag and star drag reels incorporates an oversized gear box that features an enlarged gearing system and enlarged drag system. ...essentially turning your reel into a winch.

MSS

The Mechanical Stabilizing System is a patented support system that ties the spool shaft, pinion gear, pinion gear bearing, drive shaft and main gear together with a single support system keeping them in precise alignment.

ERGO GRIP

The Ergo Grip handle knob is an extremely comfortable oversized handle-knob design for both speed and power designed to fit in the palm of your hand.

2-SPEED GEARING

Okuma's 2-speed technology incorporates two sets of stainless steel main and pinion gears, allowing anglers the option of a high-speed gear ratio or a powerful low-speed gear ratio for maximum power and torque.

CRC

Corrosion Resistant Coating combines Okuma's proprietary HDG-II gearing system, which offers exceptional anti-corrosive properties compared to standard gears.

ALG

With today's super braided lines and lighter more compact reels, ALG offers anglers lighter weight gears without compromising on strength and durability.

ALUMILITE FRAME CONSTRUCTION

Lightweight, diecast aluminum frames provide more precise tolerances for precision gear alignment, maximum castability and ultimate durability for withstanding more pressure and torque than traditional graphite frames.

HP BEARINGS

High Performance (HP) Bearings were designed to be more than 10 times more resistant to saltwater than standard stainless steel bearings. These bearings may even outlast the angler himself.

RES II

2nd generation Rotor Equalizing System incorporates a computer-balanced weight precisely placed in the rotor. This weight allows for precision balance and eliminates all spool wobble for perfect alignments and smooth cranking.

BAITFEEDING SYSTEM

Okuma's patented baitfeeding system allows anglers to disengage their spinning reel spool and allow their bait to run freely & incorporates a secondary micro-adjustable drag system at the rear of the reel for precise control.

HYDRO BLOCK

This rubber gasket mounted in the top of the spinning reel spool blocks water and foreign materials from entering the drag system and ensures that your drag washers always perform at optimal levels.

EFR II

The Even Flow Roller System utilizes a ball bearing under the line roller to maximize efficiency. This roller helps reduce line twists by freely rolling over the line roller without friction.

QUICKSET

This system allows for instant handle engagement, in one direction, aiding in rock solid hook sets by eliminating all handle back play commonly found in many reels.

VELOCITY CONTROL

The Velocity Control System is an adjustable, 6-pin centrifugal braking system for precision spool control. Weights can be adjusted IN or OUT for additional spool control.

SPOOL ACCESS PORT

This unique new design can be found on Okuma's low profile baitcast reels. The Spool Access Port allows for quick access to the spool, but more importantly it allows quick access for adjusting the Velocity Control System.

MAKAIRA *Spin*

Makaira Game Reels are built from the ground up to be the toughest and most durable reels an angler could own. Constructed from the finest and strongest components available, Makaira series reels are big game reels developed to pursue everything from Giant Trevally and trophy-sized Yellowtail, to the most formidable adversaries in the ocean, like giant Bluefin Tuna, Marlin, Yellowfin Tuna and large sharks.

- Forged aluminum, machine cut body/sideplate: Maximizing strength
- Forged aluminum, machine cut Cyclonic flow rotor
- Forged stainless steel main gear for ultimate power and strength
- Precision machine cut 17-4 grade stainless steel pinion gear
- Oversized 17-4 grade stainless steel spool shaft reduces flex
- Hydro Sealed Body and DFD system for maximum protection
- Carbonite high output drag with Cal's drag grease on full DFD
- Customized pre-set drag system, works like a lever drag reel
- 9HPB + 1RB corrosion resistant stainless steel bearings
- Dual anti-reverse system for maximum strength and reliability
- Quick-Set stainless steel German anti-reverse roller bearing
- CRC: Corrosion-resistant coating process
- Machined aluminum, 2-tone anodized spool with LCS lip
- Machined aluminum screw-in handle arm for added strength
- Heavy duty, solid aluminum bail wire with manual trip function

AZORES

Taking the great, and improving it, for 2017 the Azores Reel now features Mss (Mechanical Stabilizing System) a new exclusive Okuma technical design, with carbon plates around the main shaft to increase stability and internal strength. The Azores series of reel have a size for every type of fishing and will deal with the hardest fighting fish with ease.

- DFD: Precision Dual Force Drag system
- Precision click drag adjustment for more precise settings
- Multi-disc, Carbonite and felt drag washers for DFD
- 6HPB + 1RB corrosion resistant stainless steel bearings
- Quick-Set anti-reverse roller bearing plus ratchet system
- Dual anti-reverse system for maximum security
- Azores-40 size only features the Quick-Set anti-reverse function
- Precision machine cut brass pinion gear
- CRC: Corrosion-resistant coating process
- HDGII: Corrosion-resistant, High density gearing
- ALC: Rigid diecast aluminum body, sideplate and rotor
- MSS: carbon Mechanical Stabilizing System
- Machined aluminum, 2-tone anodized spool with LCS lip
- Machined aluminum handle arm for added strength
- Hydro Block water tight drag seal
- Heavy duty, solid aluminum bail wire

OKUMA ACCESSORIES

Neoprene Reel Shield

- Keep your reels protected from the elements
- Durable neoprene cover
- Okuma logo
- Range of sizes to give a perfect fit for every model reel
- Overhead and Spin models available

New Generation Rod Rack

- Simple
- Functional
- Easy to set up
- Easy to use
- Room to hold 12 rods

Nomad Tackle Bag

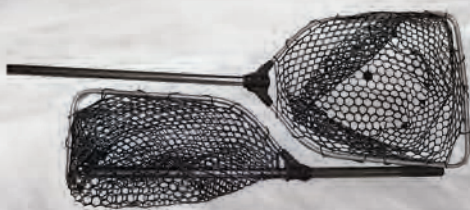

- High grade 600-denier rip-stop polyester with PVC coating
- High-quality molded composite corrosion-resistant zippers
- Two side storage pockets & front storage pocket
- Inside clear view pocket & Rugged EVA bottom for durability
- Comfortable, padded adjustable straps with oversize buckles
- Available in 3 sizes

Nomad Lure and Jig Wraps

- High grade 600-denier rip-stop polyester with PVC coating
- Durable clear compartments for easy viewing
- High-grade, durable grommets for hanging
- Quality Velcro for secure closure
- Nomad Lure Wraps come with a 1-year limited warranty
- Available in 6,8 or 11 pockets

Okuma Net

- New cobalt blue aluminium
- Strong connecting point for heavy lifts and durability.
- Machine cut, screw in handle
- Fully rubberized netting piece - strong and reduces damage to fish and tangling your gear
- 4 sizes, including foldable and extendable

Okuma Gaff

- Tough
- Reliable
- Stay sharp construction
- Powerful and reliable design
- 3 sizes 60cm, 1.1m and 1.75m

Okuma Knife Set

- 3 Knives
- Sharpener
- Board

OKUMA ACCESSORIES

Flat Peak Cap

- Latest style Cap
- Snap back for perfect sizing

Straw Hat

- Wide brim for extra sun protection
- Draw string
- Woven straw construction

Technical Fishing shirt

NEW

- Quick dry material
- Highly breathable
- UPF50+ Sun protection

Fishing T-Shirt

- Marlin, Salmon & Snapper designs
- Light breathable, elastic cotton
- Super comfortable
- Available in Blue or Grey

Ceymar 4/8 Filament Lines

- Ceymar Braid multi-colour
 - 300 metres 8 Filaments 50LB
 - 600 metres 8 Filaments 50LB
 - 300 metres 8 Filaments 80LB
 - 600 metres 8 Filaments 80LB
 - 1000 metres 8 Filaments 100LB
 - 1000 metres 4 Filaments 100LB
 - 100 metres 4 Filaments 20LB
 - 300 metres 4 Filaments 18LB
 - 300 metres 8 Filaments 20LB

13cm 53gm · 17cm 105gm Freestyler Stickbait

The Freestyler is designed for casting to cover water quickly, drawing strikes from aggressively feeding fish. Whether on a fast retrieve or a twitch and go retrieve this bait gets hit. Through wire construction, heavy split rings and high quality treble and single hooks included make sure fish stay on once hooked.

BLM. Blue Mackerel GB. Gold Black GNM. Green Mackerel PF. Pink Flash MR. Midnight Runner/Prism SF. Sardine Flash

11.5cm 23gm · 16cm 56gm Manic Prey Deep Diver

Built from our successful Manic Prey line, the Manic Prey Deep Divers are built from the hooks up to handle any game fish that crosses its path. Through wire construction in combination with heavy split rings and hooks will make sure any fish hooked comes to the boat. Now you can take the rhythmic flashing and wobbling of the original Manic Preys to a new depth!

RH. Red Head SF. Sardine Flash GNM. Green Mackerel PS. Purple Skipjack D. Dorado

13.5cm 38gm · 19.5cm 111gm Panic Popper

Topwater strikes from big gamefish are what most anglers live for. The Panic Popper has been designed from front to back as one of the toughest around. Its special cupped face design throws more water further and extra heavy duty hooks and split rings make sure even the biggest fish stay hooked.

PK. Pink GNM. Green Mackerel SD. Sardine OB. Olive Blue

#2 · 6g #3 · 9.5g #4 · 18g

The vigorous vibrating and erratic action of these incredible well-designed lures, will entice even the most wary trout to attack. The body shape, action and attention to detail on these lures set new standards for handmade lures and as a result, the struggling Prey Fry will make the predator fish go mad!

DS. Dirty Silver PR. Perch FOG. Fluoro Orange Gold RS. Rainbow Smolt

3.5cm • 3.5g

Caviar Spinner

The Caviar spinners have a build in offset tungsten ball in the fish egg imitating body - giving unparalleled casting distance and a true "Non-kink" function. Each spinner is tank tested and is an individual piece of jewellery, constructed by high quality components and equipped with customized Japanese Treble hooks.

3D Mayfly Nymph

The 3D TPE Mayfly Nymph is based on the 3D scan of a real Mayfly nymph and has incredible details. The TPE material is durable, elastic and can be used on fly rods. The lure mimics a mayfly nymph to perfection and has incredible action with fluttering and moving legs on the drop and tail kick on the twitch. With realistic colours and details, the lure will perform brilliantly in both moving and still water.

Squish Slow Jig

Inchiku slow jigs are the most popular style of slow jigs on the NZ market & Savage Gear designer Mads Grossel has taken the design to the next level. The unique 1/2 squid 1/2 fish design creates the most alluring and enticing action to activate even the most lethargic Snapper into attacking the lure. These jigs are perfect for all inshore species and specifically designed for the NZ market.

Accessories

ALUM DOUBLE SLEEVES

These high quality Aluminium crimps are perfect for rigging your lures - available in 1.8, 2.0, 2.8 and 4.0mm sizes

BRASS BALL BEARING SWIVEL KIT

- With two welded rings and coastlock snap
- 30 pieces

PAKULA SS BB SWIVELS

- Patented design
- All stainless steel
- Dual rotation
- Ball bearing
- Swivel
- Available with snap

PAKULA DOJO HOOKS

Dojo Hooks are pre-sharpened using high strength stainless steel and are sized in packs according to their gape.

DOJO SHACKLES & RIGS

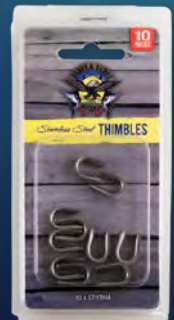

Shackles allow the lure freedom to exhibit the lure makers' desired action. They also allow the hooks to self centre, which minimises lure spin and line twist.

STAINLESS THIMBLE SET

Stainless steel line protectors to ensure the ultimate catch.

- 10 pieces

PAKULA KEEL RIGS

The Pakula Keel Rig Weights will increase your hook up rate on all skirted trolling lures by stabilising the lure rig and keeping the point in the Hot Zone.

PAKULA LEATHER GLOVES

The Pakula Heavy Tackle Gloves have been developed by Peter Pakula to offer a pair of gloves that handle very large fish on nylon, braid, Dacron and wire leaders.

DREDGE & FLASH STRIPS

12" Dredge with 6 single and 1 Triple Flash Strips & 24" Dredge with 12 Single and 1 Triple Flash Strips.

LURE & TAG BAGS

High quality bags with the greatest storage area possible.

- Close weave mesh back
- Gusseted pockets
- Drain slots
- Full length velcro over the flaps

MINI HAND CRIMPER

High quality precision deluxe hand crimper

- Hardened steel jaws
- Swages both wire and mono nylon from 50lb to 450lb
- 2 hardened side cutters

PAKULA RIGGING KIT

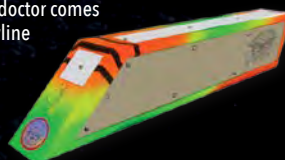

Aluminium single sleeves

- 4 sizes
- 20 x stainless steel thimbles
- 20 x nylon thimbles

PAKULA WITCHDOCTOR

The Pakula Witchdoctor is now accepted as the best fish exciter for all game fishing trolling applications. Each Pakula Witchdoctor comes complete with towline and storage bag.

That Flippy Floppy Thing

"That Flippy Floppy Thing" is a daisy chain that mimics a big predator scattering a bunch of bait in the air. It is made with 9 inch Squidnation Rubber Mauler Squids, 8 six inch Squidnation Fat Daddy Squids and 1 Squidnation 5 inch bird. When trolled, it creates erratic movement and splashing as it flips and flops, imitating a school of fish being hit. It is a proven Sailfish and Marlin raising machine. Super effective when targeting Marlin, Sailfish, Tuna, Mahi Mahi and Wahoo.

- Pressure Release Valve for air travel
- Secure, easy-open latch
- Internal Rubberized bumper system reduces shock & muffles sound

F302HD

Size: 165mm L x 120mm W x 52mm H

HD Tough Box

Heavy-duty, waterproof protection for your valuables, personal electronics and anything else that needs to be stowed away and protected from the elements.

- Rugged polycarbonate construction
- O-ring seal
- Waterproof (IPX5 rating)
- Infused Zerust technology
- Pressure Release Valve for air travel
- Secure, easy-open latch
- Internal Rubberized bumper system reduces shock & muffles sound

F502HD

Size: 195mm L x 130mm W x 80mm H

HD TUFF BOXES

Heavy Duty Waterproof Protection

Flambeau's EXCLUSIVE Zerust Dividers, Capsules and Plastabs are the absolute best way to protect your tackle from rust and corrosion. Moulded into many Flambeau products, this patented polymer emits a harmless vapour, forming a protective layer around metal surfaces for years of hassle free long lasting rust and corrosion protection!

the smarter choice

Quality LED Lighting

Fishing · Camping · Marine

PIHCOB · COB ULTRA BRIGHT TORCH

- Ultra bright 1 Watt COB LED
- Up to 90 Lumens
- Run Time - up to 3 hours
- 3 x AAA Alkaline batteries (included)
- Min order 1 x counter display (12 pcs)

PIH9LED · 9LED TORCH

- 9 LED super bright bullet shaped torch
- 3 x AAA alkaline batteries (included)
- Supplied in a counter display
- Min order 12 pcs

PIPL9SMD · PEN LIGHT

- Multi-purpose 9 ultra bright SMD LED work light
- Compact design, provides flood light quality light
- Fits in your pocket, glovebox or toolbox
- Shock resistant alloy housing with moulded pocket clip
- Uses 3 x AAA batteries (included)
- Supplied in a counter display (12 pcs)

PIZFL · ZOOM FLASH LIGHT

- 3 watt CREE LED
- Zoom Function
- Adjustable head
- Convenient pocket/belt clip
- 3 x AAA alkaline batteries included
- Min. order 12 pieces

PIWLCOB · COB POCKET LIGHT

- Mega bright COB work light + 6 x SMD LED torch
- Output- COB up to 115 Lumens + SMD up to 30 lumens
- Magnetic back with hanging hook
- 3 x AAA Alkaline batteries included
- Run time COB up to 8 hours / Smd up to ten hours
- Min order 1 x counter display (12 pcs)

PIHXML2 · 1000 LUMENS TORCH

- High powered CREE XML2 LED-10 watts
- 50 to 300 meter zoom function
- Output - up to 1000 lumens
- Modes -high -low -strobe
- Water resistant IP65
- Uses 3 x C alkaline batteries and quality pouch (included)

PIHHSPT-1500R · Waterproof Spotlight

- Available 550w and 1500w
- Rechargeable 3 x 5 Watt Cree (XMLB U2 LED) Waterproof spotlight
- High /Low /SOS trigger switch
- Rubberised lens protector
- Rubber grip handle/Wrist strap included
- Shatter proof polycarbonate lens
- IP67 up to 1 meter
- Comes with 100V-240V AC adapter & 12Volt DC Car Charger

PILTNCOB · LANTERN COB LED

- 1000 Lumen COB LED lantern
- 360 degree of light
- Carry hand / Metal hook in base
- 4 light modes (High- Medium - Low / Night light)
- Requires 4 x D batteries

PIHD3LED · 3 LED HEADLAMP

- Compact 3 LED rubber Headlamp
- 3 modes 1 LED on, 3 LED on, 3 LED Flashing
- Adjustable Head strap
- 2 x CR2032 Batteries (included)

PIHD400 · HI POWERED ZOOM HEADLAMP

- Hi powered zoom headlamp, super bright Cree XPE 3 watt LED
- Output - up to 400 lumens, Zoom - up to 250 metres
- Modes - High, low . Run time high up to 5 hours, low up to 15 hours, strobe up to 72 hours
- Water resistant IP64 3 x AA alkaline batteries included

PIHDZR · RECHARGEABLE ZOOM HEADLAMP

- High powered XPE CREE 3 Watt
- Rechargeable LED Zoom headlamp
- 3 modes HI/LOW/FLASHING
- 240 volt AC charger included
- 1 X 18650 (3.7V /1800MA) rechargeable lithium battery included
- can use 3 x AAA batteries - Includes battery cartridge
- Adjustable head strap

PIHDCOB · 3 WATT COB HEAD LAMP

- 3 Watt COB head lamp with wide angle beam
- 3 X AAA alkaline batteries included
- IPX6
- 45 degree adjustable head light
- High 180 lumens - 50 meters - 4 to 6 hours
- Low 60 lumens - 30 meters - 6 to 8 hours

PITWL · TRIANGLE COB LED WORKLIGHT

- 3 Watt COB LED
- Durable ABS rubber coated body
- Magnetic base
- 180 degree rotating light
- Modes High - Low - Off
- 4 x AAA alkaline batteries (included)

PIWL · COB WORK LIGHT + 3 LED TORCH

- Mega bright COB work light
- 3 LED torch
- Magnetic back and hanging hook
- 3 x AAA batteries included
- Run time - Work light up to 6 hours, Torch up to 28 hours
- Work light up to 260 lumens, Torch up to 15 lumens

PIWLM · FOLDING WORKLIGHT

- Mega bright COB LEDs
- Uses 4 x AAA alkaline (included)
- Lumens output up to 150 lumen
- Magnetic pocket/belt clip
- Supplied in a counter display
- Min order 12 pcs

PIWLR · SMD RECHARGEABLE MULTIFUNCTION

- Rechargeable work light /torch
- 6 SMD LED work light
- 1 SMD LED torch
- up to 290 lumen work light /up to 90 lumen torch
- 3.7 volt 1500 mAH lithium iron rechargeable battery
- 240 V AC charger and 12 volt DC car charger
- Built in over charge protection

PIBL500 · LED MAGNETIC LIGHT BAR

- 500 mm - aluminum construction
- magnetic back
- 12 volt DC/500ma
- IP68 Lumens- 720

PIFLDS15 · SLIMLINE MARINE FLOODLIGHT

- Combination of spot and flood beam
- Die cast aluminium waterproof construction.
- 1000 lumens, IP rating IP68.
- Operating voltage 09-36 Volts DC
- Suitable for all marine and automotive applications
- Available in Black & White color

PIFLD27WSQ-BLK · LED FLOOD LIGHT SQUARE

- Die cast aluminium construction
- Shock proof, water proof (IP 68) polycarbonate lens
- Fitted with marine grade 316 stainless steel fasteners
- Input voltage 10 to 30 volts DC
- Operating temp -40(C) to 60(C)
- Reverse polarity and current surge protection
- Available in various powers

PIFLD18W · LED FLOOD LIGHT ROUND

- High quality 4" die-cast aluminium housing
- Water-proof & Anti-corrosion (IP68)
- Circuit board completely sealed
- Input voltage: 10-30 Volts DC
- Current Draw: 1.5Amps @ 12 V DC
- Luminous Flux: 950 Lumens
- Life time: more than 30,000 hours
- Available in various powers

PISL1M5050CW · STRIP LIGHTING 5m

- Super bright multipurpose strip light
- Self-adhesive back 3M, plastic clips and end cap included
- Suitable for marine, camping & automotive applications
- Water proof
- Operating voltage : 12 volts DC
- Current draw 600mAh per meter
- Pre Wired both ends
- Available in 2 colours

PISL1M3528CW · STRIP LIGHTING 1m

- Super bright multipurpose strip light
- Self-adhesive back 3M, plastic clips and end cap included
- Suitable for marine, camping & automotive applications
- Water proof
- Operating voltage : 12 volts DC
- Current draw 600mAh per meter
- Pre Wired both ends
- Available in 2 colours

PIPRINC2 · FLOUNDER LIGHT

- Ultra bright cree LED
- Waterproof
- Battery operated (includes 6 x AA batteries)
- Up to 5 hours use from one set of batteries
- 45 degree wide spread light

PIWB20L · WATERPROOF BAG

- Outdoor/camping use
- 10L, 20L and 30L capacities
- Water resistant
- Made from heavy duty tarpaulin
- Roll and lock feature for complete watertight closure
- Adjustable shoulder strap included

PIARHORN · AIR HORN

- Amazing loud sound from this warning device
- No need to worry about the air cannister going flat as this is a manual device
- Includes bike tyre pump connection and device for blowing up balls etc.

PIDL10mm10M · DOCK LINE

- Double Braid - Black in hang pkg
- Double braid nylon Dock line / mooring line
- Breaking strain: 1800Kg - 4600kg (depending upon the Dockline)
- Soft eye spliced in one end
- Shock absorbing elasticity
- Hanging clip and strap provided
- Black in colour
- Available in different sizes
